SUMMARY

Frontend Developer with hands-on experience in telecom BSS platforms at Tecnotree, contributing to enterprise-grade NextJs and ReactJs applications for global operators. Skilled in API integration, UI development, debugging, and Agile collaboration with exposure to real production systems. Passionate about building scalable, user-centric web and mobile experiences.

TECHNICAL SKILLS

- **Frontend**: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Responsive UI, Hooks, Material-UI
- **Mobile**: React Native
- **Backend**: Node.js, REST APIs
- **Databases**: MySQL, Mongo DB, JDBC
- **Tools**: Git, GitLab, GitHub, Postman, CI/CD
- **Concepts:** Agile/Scrum, API Integration, Component Design, Debugging

WORK EXPERIENCE

Frontend Developer Intern – Tecnotree Convergence, Bengaluru July 2025 - Present

- Developing and maintaining UI modules for Campaign Manager and Experience Manager, used by global telecom operators like Lyca Mobile, Zain, Emtel, Etisalat.
- Implementing React.js components, API integrations, and UI workflows for real production environments.
- Improving frontend stability by handling bug fixes, API mismatches, regressions, and responsive UI issues.
- Collaborating with product managers, backend teams, and QA in Agile sprints, contributing to release cycles.
- Supporting UAT testing, debugging, & code optimizations, performing responsibilities like a developer role.

Frontend Developer Intern – Robowaves, Bengaluru Feb 2025 - July 2025

- Collaborated in Agile sprints to build and test frontend modules for a full stack job portal project.
- Integrated RESTful APIs using JavaScript and ensured smooth UI backend communication.
- Participated in sprint reviews and implemented improvements based on user feedback.

React Native Intern – CodeLab Systems, Mangaluru Oct 2023 - Nov 2023

- Developed a Recipe App using React Native and Node.js to enable browsing, saving, & sharing of recipes.
- Applied advanced navigation techniques and modular UI design to enhance user experience.

EDUCATION

Bachelor of Engineering – Information Science and Engineering CGPA: 7.89/10

AJ Institute of Engineering and Technology, Mangaluru (Nov 2021 – May 2025)

PROJECTS

DaanSethu | React Native, Node.js, Firebase, Clerk Expo, REST APIs
https://www.github.com/Pbathin/Daan-sethu

- Cross-platform donation and support app connecting donors with recipients in real time.
- Integrated Firebase for authentication and real-time DB, implemented secure user flows.
- Followed Agile practices to deliver features weekly.

Laboratory Management System | Java, MySQL, XAMPP
https://www.github.com/Pbathin/Laboratory-Management-system-

- Developed a web-based system for booking lab tests and managing inventory.
- Optimized backend using SQL queries; improved operational efficiency by 30%.
- Used MVC architecture and form validation for robustness.

CERTIFICATIONS

- **React Native Projects** – Infosys Springboard, Jun 2024
  www.infyspringboard.onwingspan.com/
- **SQL Certification** – Hacker Rank, Apr 2025
  www.hackerrank.com/certificates/117ac3987e6e
- **Problem Solving** – HackerRank, Mar 2023
  www.hackerrank.com/certificates/f69814ae9855
- **Java Certification** – Programming Hub, Oct 2022
  www.programminghub.io/certificates/

AWARDS

- **Anveshan 2025 – Agastya International Foundation**
  Designed and developed DaanSethu; selected among Top 7 projects at SDM Engineering College, Dharwad. (https://www.agastya.org/)
- **IASF 2024 – IUCEE**
  Secured 3rd Prize for “Mobile Controlled Arecanut Pesticide Sprayer” at KLE University, Hubballi. (www.sites.google.com/view/iasf2024/home)

TRAINING

Software Development Course in J Spiders, Rajajinagar, Bangalore.

STRENGTHS

Teamwork | Problem Solving | Time Management| Good Communication | Good Programming
